

Anti-inflammatory treatment for depression

If you are:

- **Between the ages of 18 and 80**
- **Have not responded to antidepressants**
- **Not currently taking street drugs**
- **Otherwise healthy**

You may be eligible to participate in a research study offering anti-inflammatory treatment for major depressive disorder within the Mood and Anxiety Program at the Centre for Addiction and Mental Health. This study is for clinical depression which has not responded to several different medications.
